

IN THE NORTH CAROLINA STATE BAR

SCOTT EDWARD JARVIS  
State Bar number 10211

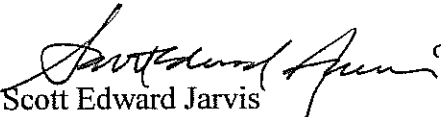

PETITION TO TRANSFER FROM DISABLED STATUS TO ACTIVE STATUS

Now comes Scott Edward Jarvis and petitions the State Bar to transfer from disabled status to active status, and in support thereof states as follows:

In February 1998 I was in an automobile accident in which an individual ran a red light and struck my vehicle. My vehicle was totaled and I receive numerous injuries including a traumatic brain injury. As the State Bar file will reflect, my traumatic brain injury resulted in significant disability which interfered with the practice of law. I also experienced typical traumatic brain injury symptoms, including but not limited to, impaired short-term memory, volatile emotional responses, difficulty performing routine mental exercise, and other accompanying symptoms. In response, my law practice was closed, supervised by another attorney. My wife and I moved to Colorado to be near other family residing there. I received intensive therapy in Colorado. I was on a Social Security disability status, and drew Social Security disability benefits until that was transferred to regular Social Security benefits. After several years healing had occurred, and I became a patient of the Colorado rehabilitation program, and received therapy and benefits through that program. In 2002 I began intermittent work as a substitute teacher in the Woodland Park school system, at the high school and middle school levels. I also began intensive study in the field of psychology and pastoral counseling. For four years I was employed as a mediator in in the Colorado 11<sup>th</sup> judicial district as an employee of the Office of Dispute Resolution, a division of the Colorado Judicial Branch. I was appointed in Park County, Colorado, a Special Master to resolve two complicated land issues with multiple parties, and successfully resolved those issues without appeal, after holding hearings. I continued increasing work as a substitute teacher, and for the immediate past school year was the assistant forensics coach for the Woodland Park High School. For the past three years I practiced pastoral counseling and psychotherapy, registered with the state of Colorado (see attachment), during which time I treated to completion, among others, two Complex Post Traumatic Stress Disorders. I have completed the CLE hours required in the previous order in this matter, and I have paid the dues owing, also as required in the previous order.

I have recovered my cognitive function, retaining only a slightly impaired short-term memory and an occasional word finding difficulty, and I have learned compensating behavior regarding these limitations. I am confident that I can now do a good and competent job in the practice of law.

Respectfully submitted, this 26<sup>th</sup> day of August, 2009

  
Scott Edward Jarvis
